Raising the message Hair Will Grow Happiness Will Reach The Right Place, Malayalam Department students Aparna E, Hridya Pramod, Jishila cut their hair and donated it to cancer patients. Most women cut, restyle, or shave off their hair for either styling or religious purposes, but ur students, at Cope with Cancer, aim to create awareness, to inspire people to donate their healthy hair for a noble cause to someone who needs it and make them feel complete from within. It is a kind, generous and satisfying way for those who want to give something back to society.

Donating hair for cancer patients is both easy and rewarding and anyone can do so. Our hair that takes so long to grow can be made into a beautiful wig for someone who really needs it to maintain a positive body image after her hair is shed due to chemotherapy.

The main factor that destroys health is unsanitary conditions so eliminate them. The spheres of sanitation are as wide as individual, household, neighborhood, village and nation. The role of environmental cleaning is to reduce the number of infectious agents that may be present on surfaces and minimize the risk of transfer of micro-organisms from one person/object to another, thereby reducing the risk of cross-infection.

The program was Inaugurated by Municipal chairperson smt. Sunija Teacher. NSS conducted the cleaning program with the message that environmental cleanliness is as important as personal hygiene. 5) CAREER ENHANCEMENT PROGRAMME

A CAREER ENHANCEMENT PROGRAMME JOINTLY ORGANISED BY THE NEHRU YUVA KENDRA & NSS AT TOWN HALL, THRISSUR ON 21/3/2022.

Career development is the series of activities in an on-going/lifelong process of developing one's career which includes defining new goals regularly and acquiring skills to achieve them. Career development usually refers to managing one's career in an intra-organizational or inter-organizational scenario. It involves training on new skills, moving to higher job responsibilities, making a career change within the same organization, moving to a different organization or starting one's own business

Career development is directly linked to the goals and objectives set by an individual. It starts with self-actualization and self-assessment of one's interests and capabilities. The interests are then matched with the available options.

The individual needs to train himself to acquire the skills needed for the option or career path chosen by him. Finally, after acquiring the desired competency, he has to perform to achieve the goals and targets set by him.

Career development is directly linked to an individual's growth and satisfaction and hence should be managed by the individual and not left to the employer. Career development helps an individual grow not only professionally but also personally. Learning new skills like leadership, time management, good governance, communication management, team management etc. also help an employee develop and shape their career. Students were able to learn such things about career development from that class.

8) BLOOD DONATION CAMP

Blood donation camp organized by NSS Collaboration with INDIAN MEDICAL ASSOCIATION was inaugurated by M L A, Ad.V.S Sunilkumar. Blood donation refers to a practice where people donate their blood to people so it helps them with their health problems. Blood is one of the most essential fluids of our body that helps in the smooth functioning of our body. If the body loses blood in excessive amounts, people get deadly diseases and even die. Thus, we see how blood donation is literally life-saving which helps people. It is also a sign of humanity that unites people irrespective of caste, creed, religion and more.

Blood donation camp inauguration by MLA, Ad.V.S Sunilkumar

As we all know by now, blood donation has a lot of benefits. Why a person requires blood has various reasons. It may be an illness or also an accident, nonetheless, it is important. The blood that we donate helps a person in need. It enhances their health condition and makes them overcome their critical situation.

In other words, blood donation does not simply help that specific person but also contributes to a responsible gesture towards society. Moreover, it also enhances the

health of the donor. As the cell depletion allows a way for production, not new cells that freshen our body system.
