Any specific suggestion for improvement in about 100 words:

Make good canteen facilities, sports and extracurricular activities

The college and the staffs do an excellent job in shaping the career of the students. My son was able to participate in various quizzes and other Arts Fests with the help of the teachers. The college also has a significant role in enhancing his confidence level and decreasing his stage fear. Furthermore, he cracked some P.G. entrance tests conducted by Central and State universities, and he got to enroll in Pondicherry university. All this happened with the support and help of the Department of physics.
