

## *Acacia mangium* Willd.

### **Family:** Fabaceae

**Common name:** Black wattle

**Vernacular name:** മാഞ്ചിയം

**Nativity:** North-eastern Queensland in Australia and in eastern Maluku Island

**Habit:** Tree

**Habitat:** Area of high rain in northern Australia

**IUCN Status:** Least Concerned

**Keynotes:** Species of flowering tree in the pea family, trees produce sapwood and heartwood.

**Uses:** It is used for furniture, doors and window frames. The glossy and smooth surface finish after polishing leads also to a potential for making export-oriented parquet flooring tiles and artifacts.
